The stretch rack provides the most dense bike parking solution. The two tier design minimizes footprint, and the space saving vertical stagger further maximizes bike density. Available in locking and non-locking options, the stretch rack is a versatile, modular indoor solution for long term parking needs.

**Product Specifications**

- Modular construction allows for easy expansion, side by side or back to back
- Staggered bike position saves space and eases clearance between bikes
- Can be combined with vertical racks for full bike room layout
- Does not require anchoring (wall or floor)
- Bolt together design
