

EZ-UP™

Lift Assist Vertical Bike Rack

Assisted Lift

Kinetic's EZ-Up™ vertical bike rack is a compact bike parking solution that features a proprietary lift mechanism. It is ideal for vertical storage of all types of bikes, including city bikes, e-bikes, mountain bikes, racing bikes, cargo bikes, and many others.

Manufactured in the Netherlands by Lo Minck Mobility, EZ-Up™ is a unique bike parking system that allows you to easily park your bike vertically.

Experience the Kinetic difference.
